

PARADISE VALLEY COMMUNITY COLLEGE (PVCC)
Associate in Applied Science (AAS) degree in Nutrition and Dietetic Technology
UNOFFICIAL ADVISEMENT CHECKSHEET – FULL TIME

Program Description: The Associate in Applied Science (AAS) in Nutrition and Dietetic Technology is a degree that emphasizes medical nutrition therapy, community nutrition and food service management. Students acquire the knowledge and skills foundation to work in dietetics through the integration of classroom learning and 466 hours of supervised practice. Emphasis is placed on the development of communication and human relations techniques that prepare the graduate for professional success. Upon successful completion of the program, the graduate will be eligible take the Nutrition and Dietetics Technician, Registered (NDTR) Examination by the Commission on Dietetic Registration (CDR).

Job Description: The Nutrition and Dietetics Technician, Registered (NDTR) is prepared to play a key role in providing quality, cost-effective client care and food service management in a variety of employment settings. Job responsibilities may include patient counseling and education in Medical Nutrition Therapy, medical record documentation, health promotion and disease prevention, menu development, and management skills related to nutrition services and institutional food production.

Opportunities: NDTRs are an integral part of healthcare and food service management teams. They work independently or in partnership with Registered Dietitian Nutritionists (RDNs) in a variety of settings: acute and long-term care facilities, community health programs, senior centers, home health care programs, school lunch programs, WIC programs, fitness and wellness centers, and weight management clinics.
