

MATLAB - Installation (Windows or macOS)

1) After downloading the MATLAB Installer for your computer type (win or mac), doubleclick the **MATLAB Installer** appropriate for your operating system.

matlab_R2020a_win64.exe or InstallForMacOSX

2) When the **Mathworks Product Installer** opens, you will need to authorize the installation by logging into your Mathworks.com account. Enter your **mathworks.com** verified email address and password. Click **Next**. **If you have not created a Mathworks.com account, please go to our* <u>*Remote Learning Support*</u> page for instructions.
