

# Need a TB Health Card?

## **Are you required to obtain TB clearance for an employer, school, or to perform volunteer work?**

The Maricopa County Department of Public Health TB Control and Prevention Program offers TB screening and a health card for only \$65.

Based on your medical history and symptoms, you may be screened and tested for TB using a skin test or a blood test, and a chest x-ray may be performed, as determined by the program's clinical staff.

TB Health Cards are available on a walk-in basis, and no appointment is necessary.

**Please Note:** TB skin tests will require you to return to the clinic 48-72 hours after the skin test is placed; for this reason, skin tests are not administered on Thursdays or on Fridays if the following Monday is a holiday.

Blood testing for TB does not require a return visit for results and is available any time during clinic hours.

We accept the following forms of payment: Cash, MasterCard, VISA or American Express.

Sorry, we do not accept personal checks and we do not bill insurance companies.

### **Clinic Hours & Location**

Monday, Tuesday, Thursday, Friday

8 am—5 pm

Wednesday

9 am—5 pm

(Please register before 3pm)
